Framework for OHS Practice in Canada
October 15, 2019

National Accreditation Board (under development)
Drives the national standard for OHS education
Accredits OHS Academic Programs at Colleges/Universities
(formalization of program recognition; drives consistency of OHS education).
The Accreditation Framework for occupational safety programs is currently under development / joint BCRSP/CSSE Task Force

National Certification (Examinations) Boards (e.g. BCRSP, CRBOH, etc.)
Sets & administers the consistent national standard for practice in the public interest

Provincial/Territorial Regulatory Colleges
Regulates the profession in the public interest

Member Services
Supports cross communication amongst all organizations involved in the framework. Once formed, would include a representative from all the regulatory bodies, the national examination boards, the accreditation board(s), and the membership organizations. This umbrella organization would help drive continuous improvement, harmonization, and accountability across all organizations. This organization may also drive research, and advocacy efforts for the profession.

Group Insurance Plans (supports regulatory requirement)
Regions and Chapters
Professional Development (supports obtaining CPD)
Annual Conference (supports obtaining CPD)
Awards & Recognition (including honorary membership categories)
Publications and Journals (supports obtaining CPD)

Code of Conduct

Supports cross communication amongst all organizations involved in the framework. Once formed, would include a representative from all the regulatory bodies, the national examination boards, the accreditation board(s), and the membership organizations. This umbrella organization would help drive continuous improvement, harmonization, and accountability across all organizations.
